WORK EXPERIENCE

Current	Senior Research Fellow at DEPT. OF AGRICULTURE & FOOD ENGINEERING IIT Kharagpur, India
OCT 2014	<i>Increasing water use efficiency through experimental sensor networks</i> Provided technical know-how, implementation and support for deployment and analysis of data gathered from wireless sensor networks, deployed for in-field monitoring of agricultural data. Developed and implemented an IoT- Cloud based infrastructure for integrating and automated analysis of the incoming field data. Designed various smart-phone apps and sensor nodes for low-cost field parameter monitoring.
JUN 2012- OCT 2014	Assistant Professor at UNIVERSITY OF ENGINEERING & MANAGEMENT, JAIPUR, India <i>Dept. of Electronics & Communication Engineering</i> Responsible for teaching as well as administrative assignments. The teaching assignments spanned over theory as well as practical classes. Administrative tasks involved the assignment of acting Head of Department for a period of 2 years from 2013-2015. Oversaw and implemented the setting up and planning of over 7 laboratories, as well as student welfare activities such as workshops, internships and industrial visits.
AUG 2011- MAY 2012	Lecturer at INSTITUTE OF ENGINEERING & MANAGEMENT, KOLKATA, India <i>Dept. of Information Technology</i> Responsible for theory as well as practical assignments. Additional responsibilities included mentoring students and organizing an international conference at the institute, as the <i>Assistant Organizing Secretary</i> , in Jan 2012.
MAY 2009- JULY 2009	Intern at DEFENCE RESEARCH & DEVELOPMENT ORGANIZATION, NEW DELHI, India <i>DESIDOC- (Defence Scientific Information & Documentation Center)</i> Applied various data-mining and visualization techniques for analyzing interdependence between various users and their field of research. The data analyzed was acquired from the DRDO central library, which had information about various scientists and their book issue records. This work culminated in the publication of a magazine article and a research paper.
JAN 2009- FEB 2009	Intern at INDIAN INSTITUTE OF TECHNOLOGY KHARAGPUR, India <i>Dept. of Computer Sc. & Engineering</i> Implemented various image processing technologies to perform segmentation and thresholding of satellite images, for detection of aircraft in the satellite images.
DEC 2008	Intern at CENTER FOR ELECTRONICS TEST ENGINEERING (CETE) , KOLKATA, India <i>Eastern regional Testing Lab- East, Government of India</i> Learned about various Intel based micro-controllers and micro-processors. Implemented the technologies learned to design an automated traffic light controller using Atmel 89c51 based micro-processor.
